

You Bring Us Life

You brought us life through your death
You brought us hope through your hopelessness
And through your weakness the strength of God was shown
You brought us hope

You brought us love despite our hate
And so you suffered so that we might thrive
The grain of wheat has fallen to the earth
And so we grow up in your love

*You brought us life
You brought us hope
You brought us strength
You brought us love*

And so we live
Knowing you have died
Our only hope is the hope you give
We look upon your weakness and clearly see God's power
You bring us life

Changed by your love we turn back to you
And in your suffering we are healed again
For where the blood of Christ has fallen to the earth
In us new life has grown once more

*You bring us life
You bring us hope
You bring us strength
You bring us love*
